Education

Utah Valley University [Fall 2011]

Bachelor's of Computer Science

- Extracurricular Activities:
 - Web Development Club, Cycling Club

Experience

Software Engineer - Serverplus [November 2013- Present]

- Experience with Python, Pylons framework, Nostests, SQLAlchemy ORM w/ Postgresql, Ajax, jQuery+plugins, React, Javascript, Subversion and Git.
- Responsibilities include maintain current Python + Pylons web application, extend API's, running test suite (nostests), and adding new models to PostgreSQL.

System Administrator - Serverplus [May 2015- Present]

- Experience with BIND, Citrix Xenserver, Nagios, Microsoft Server, Active Directory, Exchange, CentOS, Mikrotik, Asterisk.
- Job functions include adding new dial plans to asterisk, creating SIP/IAX2 configurations for each company we support. Create new hires in our Active Directory and Exchange server. Updated External DNS Zone records using BIND.

Software Engineer Intern - WaveTronix [January 2015-May 2015]

- Experience with C#, Hardware testing, Unit testing, LINQ, SQL Server 2014, Git, Mercurial
- Tasks included documenting, and reporting bugs using FogBugz and Kiln, attend daily scrum meetings, implement bug fixes into hardware testing software. Wrote LINQ queries that licensed hardware. Helped the team migrate from Mercurial to Git.
